ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
EXCEPT WHERE SHOWN
OTHERWISE

Information has been received from both our Philadelphia and New York Offices that the news media and other sources have been informed by the Citizens Commission to Investigate the FBI that during the forthcoming week, sources and informants who were identified in material stolen from the FBI Resident Agency in Media, Pennsylvania, 3-8-71, will be contacted and attempt made to persuade them to discontinue their cooperation with the FBI. Should these sources and informants refuse, it was indicated their identifies will be made known to the press. U

Anticipating such contacts, immediately after the burglary and upon review of the stolen documents, appropriate field divisions were instructed to alert various sources and informants whose identities could be pinpointed through disclosure of the stolen documents such as the possible identification of three symbol number racial informants. They were likewise requested at this time to immediately contact the FBI should they, in turn, be contacted by any individuals in connection with this matter.

The stolen material has been reviewed by Domestic Intelligence, Special Investigative, General Investigative, and Administrative Divisions to determine what information, if any, it contained which might have a bearing on the operations of other Government and cooperative agencies. Certain data relative to [redacted] Central Intelligence Agency, Defense Supply Agency, and Secret Service, was noted. While it was recommended each of these agencies be alerted, approval has been obtained that we alert Secret Service to the fact a document relating to the agreement between that agency and the FBI concerning Presidential protection was stolen. This has been done. U

Anticipating contacts with FBI informants and sources, appropriate field offices were instructed to realert these individuals as to potential contacts and again request immediate notification of the FBI should they occur. U

ACTION: For information
